

How to Add a 'Record Video' Question to Your Survey

Make your surveys more interactive with ProProfs. Choose from 20+ question types, including the 'Record Video' question that allows your survey takers to answer questions by recording a video in real-time. They can even upload a previously recorded video file.

Benefits of the 'Record Video' question:

- An engaging way to answer survey questions
- A simple way to prompt customers to record video testimonials
- Gives a good idea about the personality of your survey takers

This is how a 'Record Video' question appears in a survey:

What do you feel about our service?

You can respond to this question by recording a video

[Record](#) [Upload](#)

To add a 'Record Video' question to a survey, follow the steps below:

Step 1. On the **Manage Survey** page, go to **Questions >> More** on the left side menu and click on the **Record Video** question type.

Grid of Choices Ranking

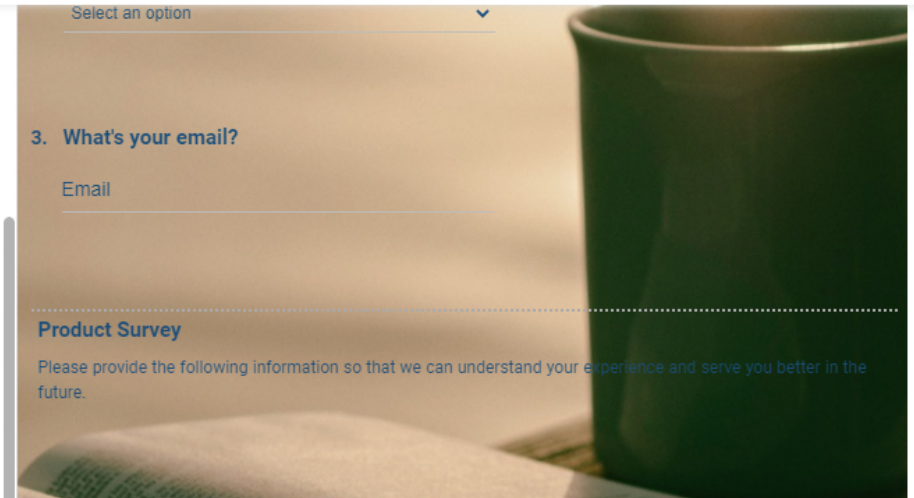

Date/Time Instruction

Draw Address

Phone Upload

Slider Selfie

Record Video

Step 2. Customize the question as required as shown in the screenshot below.

1 — What do you feel about our service?

Description | Edit below for additional instructions

2 — You can respond to this question by recording a video

Advanced ^

3 — Taker Can: Record or upload video answer

4 — Max recording time: 45s

5 — Image: ON OFF | Required: ON OFF | Hidden: ON OFF

1. Enter your question here.
2. Describe how survey takers can answer this question.
3. Under **Advanced**, click on the dropdown menu to select one of the following options for answering the question: **Record a video answer**, **Upload a video answer**, **Record or upload video answer**.
4. Enter the **maximum record time** for the video.
5. Add an **image** for this question.
6. Make this question mandatory or optional for the survey takers.
7. Hide/Unhide the question for your survey takers. Hidden questions are visible only to you the admins.

When you're done customizing the question, click **Save**. The 'Record Video' question is now successfully added to your survey.
